Ori Ganor

Software Engineer @ Xoom, A PayPal Service | AWS, Jenkins
Tel Aviv-Yafo, Tel Aviv District, Israel

Summary

With over nine years of work experience, I am a passionate and proficient software engineer who enjoys solving complex problems and delivering high-quality solutions. I have a strong background in computer software engineering, with skills in AWS, Azure, Jenkins, full-stack development, API design, and scripting. I am currently working at Xoom, a PayPal service that provides fast and secure online money transfers.

At Xoom, I work on large-scaled software projects that involve designing and implementing APIs, developing and testing full-stack applications, and deploying and maintaining cloud-based infrastructures. I use various technologies and tools, such as Python, DotNet, Bash, Microsoft AD, Git, and more, to ensure the functionality, reliability, and security of our systems. I collaborate with other engineers, product managers, and stakeholders, and contribute to the continuous improvement of our products and processes. I take pride in my work and strive to deliver value to our customers and partners.
